LinkedIn: <https://www.linkedin.com/in/fabughali/> | GitHub: <https://github.com/fabughali/>

Professional Summary

Full-stack Flutter & Dart developer with 20+ years of technical and leadership experience. Expert in building responsive cross-platform apps with Firebase & Supabase backends. Strong background in UI/UX, API integration, and scalable cloud deployment. Founder of Infinitility Tech, delivering MVPs and production apps for startups and enterprises.

Key Skills

Flutter | Dart | Full-Stack Development | Firebase | Supabase | REST APIs | UI/UX Design (Figma) | Mobile & Web App Architecture | Git & GitHub | Agile/Scrum | SDLC | CI/CD | Google Cloud | AWS | State Management (Bloc, Provider, Riverpod)

Professional Experience

Founder & Technical Consultant

Infinitility Tech LTD | Jordan | Sep 2023 – Present

- Developed cross-platform applications (iOS, Android, Web, Desktop) using Flutter/Dart, reducing delivery time by 40%.
- Designed and implemented frontend and backend logic including authentication, real-time data, and state management.
- Integrated REST APIs, JSON, and webhooks for payments, CRM, and communication platforms.
- Built scalable backends with Firebase & Supabase (Firestore, Auth, cloud storage).

- Automated workflows with Zapier, n8n, and AI tools (ChatGPT, Qwen Max).
- Managed full project lifecycle using ClickUp, from concept to delivery.

Digital Solutions Consultant

Hybrid Engineering LLC | USA (Remote) | Aug 2014 – Sep 2023

- Built responsive web and mobile apps using FlutterFlow and Bubble.io for MVP delivery.
- Designed user flows and interfaces, ensuring usability and quick time-to-market.
- Transitioned focus in 2023 to full Flutter/Dart development for greater flexibility and depth.

Project Manager

BT-Applied Technology (Saudi Bin Laden Group) | Saudi Arabia | Apr 2011 – Aug 2014

- Managed installation of low-voltage systems (CCTV, Access Control, Intercom, PA, MATV/SMATV, cabling).
- Supervised teams, ensured compliance with specs, and coordinated with contractors.
- Delivered projects within safety and quality standards.

Saudi Red Crescent Authority | Saudi Arabia | Dec 2009 – Mar 2011

- Implemented centralized emergency operations system with GPS/GIS ambulance tracking.
- Directed IT operations ensuring 24/7 system reliability.
- Integrated system with police and civil defense networks.
